

JOHAN PRETORIUS
PHOTOGRAPHY & DVD

Family Photography on Location Promotion

Our on location Family Photo shoot is very different to your typical portrait session. Instead of meeting in an empty studio which is a very formal environment, we will meet you and your family at an outdoor location near your home. It can be an environment which is familiar and comfortable to you, such as a farm, an open field, the beach or even a favourite holiday spot. All you have to do is relax, have fun and enjoy yourselves and leave the rest up to us. We will capture some truly magical images that you and your family will treasure forever.

at R3 990 the shoot includes:

- Portraits of each family member
- The whole family as a group
- Combination of children and parents
- Couple photos of parents
- Children with props of their favourite hobbies or pets
- 25 Jumbo (10x15cm) prints
- 1 Framed Enlargement (30x45cm) with your choice of Canvas or Royal Finish

- Our Framed Enlargements are edited and printed on the highest quality printers and photographic paper.
- Only the highest quality and top of the range Nikon Cameras and Nikkor Lenses are used.
